## Apply a Multi-Car Discount – Auto/PowerSports

#### **Description**

A policy is eligible for multi-car discount when two or more vehicles on a policy have liability coverage or a single-vehicle policy which has a company car indicated.

The system will calculate the discount, based on the vehicles on a policy. If there is another policy, in the household with qualifying vehicles, you would indicate them in the "Household Composition" section. This job aid demonstrates the basic steps to add Household Composition information to an existing Auto or PowerSports policy.

This same information can (and should) be filled out during a new submission, if applicable.

Step 1	
Action	Screen
On the "Policy Info" screen: • Locate the "Household Composition" section. In this example, the auto policy is bound and no additional auto policies in the household are indicated.	PolicyCenter* Desigtop Account Policy Search Ieam Administration Testing Training Image: Control of Control
